# Ion Exchange Membrane Caustic Soda

## Specification

<table>
<thead>
<tr>
<th>Grade</th>
<th>Purity (NaOH)</th>
<th>Minimum</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>≥98.50%</td>
<td>min (Flake)</td>
</tr>
<tr>
<td>B</td>
<td>≥48.50%</td>
<td>min (Liquid)</td>
</tr>
<tr>
<td>C</td>
<td>≥30%</td>
<td>min (Liquid)</td>
</tr>
</tbody>
</table>

## Packing & Container Loading

1. Flake caustic soda is packed with bi-layer woven bag with its inner layer as high density polyethylene plastic film bag
   - N.W.: 25KG (±0.20KG)
   - 20MT–22MT per each 20’ container
2. Liquid sodium hydroxide is transported with tank lorry

## Plants & Capacity

- Yunphos Electricity & Chemical Co., Ltd.
- 200,000 MT/Y

## Standard

- GB209–2006
